Project Coordinator
Hazardous Waste Program
Missouri Department of Natural Resources
7545 S. Lindbergh, Suite 210
St. Louis, MO 63125

Dear Ms. Kump-Mitchell:

Enclosed is the quarterly report for the quarter ending March 31, 2004 as required in paragraphs 91 through 94 of the Corrective Action Abatement Order on Consent, Order No. 99-HW-002 (AOC). The following summarizes the activities completed during the quarter.

Description of Work Completed During the Quarter:

A conference call was held with MDNR regarding the resubmitted indoor air report dated December, 2003. Soil and groundwater concerns were also brought up as part of the conference call. During the call it was agreed that Modine would submit a letter of further explanation regarding the indoor air issue and, additionally, soil and groundwater issues. This letter was submitted on March 5, 2004.

Summaries of Findings, Data, Etc.:

Additional calculations were requested by MDNR regarding the site specific criteria for indoor air at the Camdenton site. The recalculated results were still below the new screening criteria and far below any OSHA Occupational Exposure Limits.

Summaries of Problems or Potential Problems and any Corrective Measures Implemented:

No problems were encountered during the quarter.

Projected Work for the Next Reporting Period:

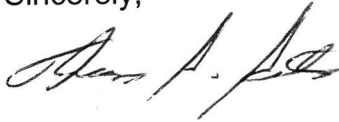

The anticipated work to be completed consists of completing the groundwater final report and completing the associated EI.

Instances of Non-compliance with the Requirements of the Order:

There were no known instances of non-compliance with the requirements of the Order during the quarter.

If you have any questions on this report, please contact me at (262) 636-1649 or at the letterhead address.

Sincerely,

Thomas S. Sanicola
Principal Environmental Engineer
